

Dementia: The Lived Experience

Juliet Holt Klinger, MA, *Senior Director of Dementia Care*

Michael Belleville, *Dementia Advocate*

Cheryl Belleville, *Dementia Advocate and Care Partner*

Dementia: The Lived Experience will explore the experience of living with dementia firsthand and from the “true experts” in dementia care — someone diagnosed with the disease and his care partner. We will explore the journey from receiving a diagnosis to developing a plan of care and support that leads to a life well lived. We will discuss strategies to maximize independence, maintain a sense of identity and plan for the future. Our presenters will describe quality care from the perspective of someone living in the early stage and their care partner and will offer insights on how care providers can support efforts to live well for as long as possible.

Following this presentation the participant will be able to:

- Explore the evidence related to care and support challenges faced by persons living with dementia and their care partners
- Gain a better understanding of individuals living with dementia
- Define what quality of care and support is through the eyes of someone living with dementia
- Understand how to support independence and identity for people living with dementia

- The Optimum Life CE series is a pre-recorded webcast.
