Webinars, training presentations, newsletters, and related materials provide general information regarding particular subjects, and are not intended to constitute legal advice. Registering for a webinar or presentation only constitutes an agreement to attend the webinar, not a contract for legal advice and does not establish an attorney-client relationship.

Learn about the increased benefits available with Life Care Planning, a holistic approach that provides both legal documentation as well as care coordination and advocacy support to help clients and families respond to the challenges of aging. Topics will include the strategies undertaken to provide comprehensive elder care services and why it may benefit older adults before and during a health crisis.
