

NOW ACCEPTING 25 PATIENTS FOR A 12-WEEK MASSAGE STUDY PROGRAM

Our mission is to provide high quality treatment for patients to improve to the greatest extent possible.

We combine healthcare providers from different healing professions to accomplish this. Unfortunately, insurance companies don't recognize the benefits of massage therapy in the healing process and many of our patients are unable to benefit from the skills of our massage therapists. We want this to change!

To that end, we have created this 12-week study to allow our patients to benefit from incorporating weekly massage therapy into their personalized treatment regimen **at no cost**. We will collect data weekly and compare the results with a group that is not receiving weekly massage therapy.

SEE IF YOU QUALIFY **FOR FREE WEEKLY** **MASSAGES**

**Must have 2 or more
painful areas to treat**

**Must receive
treatment from 2 or
more of our
healthcare Providers**

**Must receive
treatment 2 or more
times per week**

**Non-massage care
may be covered by
insurance**
