To Financially Survive Aging

Do you feel anxiety about your ability to pay for healthcare you need now or in the future? Do you feel anxiety about outliving your money?

Are you experiencing limited mobility? The onset of dementia? Other healthcare issues? Are you determined not to be a burden to your kids?

At this workshop you will learn:

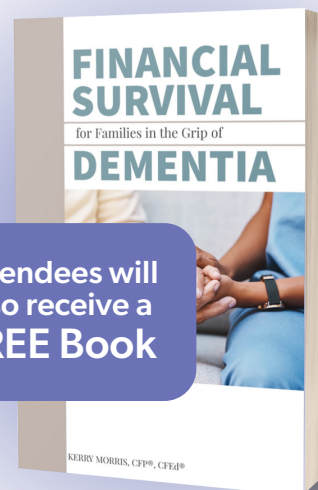

- How to choose the best asset to use for care
- How to best use your IRA funds to pay for care
- How to use a 13-year-old tax law to convert accounts into tax-free care
- How to preserve the legacy you would like to leave your family
- How to guard against the financial strain of dementia--while getting the best care available and reducing stress for your partner and loved ones
- How to utilize assets in a tax-free manner
- How to ensure you and your loved ones live your senior years with dignity and comfort without depleting the assets you spent your lifetime building
