Virtual Dementia Tour

Join us for an insightful Virtual Dementia Tour. The VDT is the evidence-based simulation that enables people to personally experience the challenges of living with dementia by “walking in their shoes.”

- **Increased understanding and empathy:** The VDT provides a unique opportunity to understand the challenges faced by people with dementia.
- **Improved communication skills:** The VDT helps participants develop effective communication strategies for interacting with people with dementia.
- **Enhanced caregiving skills:** The VDT teaches caregivers how to provide compassionate and supportive care.
- **Reduced stigma:** The VDT helps to reduce the stigma associated with dementia by promoting understanding and compassion.

Tuesday, September 23rd
2:00pm - 4:00pm

RSVP by 9/19 by calling **803-795-5736** or emailing
tania.johnson@somerbyliving.com
