Instructor Bio

Bill Logan is a retired physician with interests in most fields of Science, particularly Natural History. He graduated from Davidson College and Duke Medical schools and completed his residency in Dermatology at the Mayo Clinic. He earned a Master's Degree in medical research before deciding on private practice in North Carolina, with no regrets about leaving Minnesota winters. He served as Chairman of the Nalle Clinic Dermatology Department in Charlotte for 35 years, serving also as consulting physician for CMC hospital where he originated the Outpatient Dermatology Clinic for Indigent Patients. He also served as Adjunct Professor of Medicine, Dermatology for UNC, Chapel Hill, for 24 years and authored 9 articles for the medical literature. He has played a role in the Botany program at UNCC working with Dr. Mellichamp and Dr. "Heck" and on the Board of Advisors for the Botanical Gardens and chairing committees of the Southern Appalachian Botanical Society. He served as Chairman of Mecklenburg County's Treasure Tree Program for 9 years. He also has been a member of the Charlotte Gem and Mineral Club having lectured on occasion and competed in Mineral Displays and Lapidary competitions. After retirement, he was sole proprietor of Spectrum Minerals, participating in numerous East Coast Mineral shows for 12 years. He has expertise in the mineral, Rhodochrosite, and published the definitive book on Rhodochrosite collecting and display.
