

The Medical University of South Carolina
SC Safe Seniors Program
is proud to offer

Identifying and Referring Elder Mistreatment Training

The Identifying and Referring Elder Mistreatment Training is a concentrated overview of identifying and referring elder mistreatment for healthcare providers and professionals working with older adults. This training covers the signs, symptoms, risk factors, and mental health effects of mistreatment, identification techniques, reporting, and referring resources. Training is offered online via video conferencing or in-person at a time most convenient for your staff.
